Together, we can make a difference

The theme of the Manifest – Interschool Art competition is UN Sustainable development goals to implement ingenious, sustainable solutions to the toughest problems of the globe. With 17 Goals, 169 targets, and 232 indicators, the 2030 Agenda for Sustainable Development provides comprehensive coverage of the economic, social, and environmental aspects of development. We can all do our bit, by taking steps to live more sustainably and reducing our planetary footprint.

Practicing sustainability empowers children to construct knowledge, explore values and develop respect towards Nature, which lays the foundations for environmentally responsible adulthood in the next future. With this, students act sustainably in their daily lives to foster environmental consciousness and lifelong learning in their classroom by practicing these major principles:

Connect and develop respect towards Nature.
